SAVE FOODS FATS AND FUEL

Grandma Knew Just What To Do ... AND HOW TO DO WITHOUT

Scraps, nails and string ... paper, fats and fuel . . . anything and everything that could serve another time or another purpose was saved by our ancestors as a matter of dire necessity. The frugality of America's rugged pioneers helped to win battle after battle in our nation's history.

Today, our country asks us to practice that same frugality to help win the war, to save our way of life and to protect our freedom of opportunity for every American family.

Peace and the change-over from warstimulated activity will pose many problems to challenge the ingenuity of every one of us. Fortune will favor the family that has learned to save and has bolstered its future by the purchase of War Bonds. It's so much sounder to save than to wait to be saved.

Anheuser-Busch produces materials which go into the manufacture of: Rubber • Aluminum • Medicines • B Complex Vitamins • Hospital Diets Baby Foods · Bread and other Bakery products · Vitamin-fortified cattle feeds · Batteries · Paper · Soap and Textiles-to name a few.

Self-Determination Is Not Suddenly Possible

THE LESSON to be gained from Within China the rift arising between the United States and Britain over the nonintervention policies to be pursued in the newly liberated countries of Europe, particlarly in Greece and unfolding events. Eight men in key Italy, is that a condition rather positions were replaced by younger than a theory obtains which cannot men. Those replaced have been be easily and quickly solved by any given other important posts in the statement of mere generalities. It would seem to be in order for this nation, through its newly-constituted State department, to seek better shek.

Perhaps Britain went ahead with some of its efforts to prevent communistic domination of lands vital to its Mediterranean life line without consulting the United States, and perhaps the latter spect too. and perhaps the latter spoke too suddenly and forthrightly when insisting upon complete self-determination for the liberated lands. If these were blunders, the most can be made of them and they should be resolved in the interests of better succeeds Stilwell, says Chiang has unity and harmony,

to express themselves through free elections, But his point is that free expression of sentiment must be made possible. "The last thing that represents demonstrated by the behavior of the Chungking government will result in a reversal of the tides of war in China. liberated," he said, "it does not fol- Mean Business low that those who receive our weapons should use them to engross people were firmly attached."

sumed. Perhaps military occupa- port of all parties and elements.

How can it be possible for newly London and that his program has liberated lands ravaged by destruction to have an orderly and certain to be put forth on Spanish soil before it can be effective. But the fact fore it can be effective. But the fact fore liberated lands ravaged by destruction to have an orderly and certain that Senor Negrin makes his intention by its people as that Senor Negrin makes his intention. Freedom from outside interference is snock.

But the very first act of this new fore it can be effective. But the fact fore leaving the point where they face problems of postwar, and on these that Senor Negrin makes his intention. self-determination by its people as that belief regiments and composition of the kind and composition of to the kind and composition of the kind and composition. In short, Mr. is the kind of government that the needed support is the even Spain.

If we do not apply this policy the Russian position. In short, Mr. with equal righteousness against Stettinius proclaimed the stereotheast and the policies of the three powers into the policies of the three powers in the policies of the three powers into the policies of the three powers in the policies of the policies of the three powers in the policies of the three powers in the policies of the policies of th and utilities are not working, where welcome by every believer in the munists to get control of all Europe. for a fifth term.

Has Been Started,

By DAVID LAWRENCE WASHINGTON, Dec. 11.-Unless

foreseen stands in the way, President Roosevelt will be a candidate

The world crisis will not be over by 1948 and the problems facing the nation will be of such a serious na-

ture that the argument of presidential experience will again be

prought to the fore. There are

many persons who insist that the president's health will not stand

even a fourth term, but Mr. Roosevelt has a rugged constitution and it appears that the winning of

the last election served as a tonic

to him and removed the cause of

many months of nervous worry con-

cerning the outcome.

The truth is the Democratic party

has developed no candidate of the

These comments are prompted by a fact scarcely realized by the

How to stretch a ton of coal!

Conserving coal is going to be a "must" for everybody this winter. This isn't because less coal is being

It is estimated that 29 millions more tons of coal will be mined this year than last - with fewer men. Quite a feat by mine owners and miners alike! And there are adequate rail facilities for bringing the coal to your city.

But certain grades and sizes of coal are needed for war production. And, in addition, your local dealer is suffering from a shortage of manpower, trucks and tires. So be patient with him.

And conserve the coal he is able to deliver to you. You can make your coal supply go at least 10% further - and save that much on your fuel bill - by taking a number of simple precautions.

See that your heating system is clean and in good repair. Close off unused bedrooms. Pull your shades and drapes at night. If you can, insulate. For other suggestions see your coal dealer.

ORDINANCE NO. 1776

AN ORDINANCE OF THE MAYOR AND CITY COUNCIL OF CUMBERLAND, MARYLAND, ENTITLED,

An ordinance to be known as "The Zoning Ordinance of the City of Cumberland, Maryland," including a "Zoning District Map" which shall be a part of the Zoning Ordinance, to promote the health, safety, morals or the general welfare of the Community, by regulating and restricting the height, number of stories, and size of buildings and other structures, the size of yards, the density of population and the location and use of buildings, structures, and land for trade, industry, residence, or other purposes, in accordance with a com-prehensive plan; and to provide for the administration and enforce-ment of the regulations and restrictions; to impose certain duties and confer powers upon the Building Engineer and the Board of Appeals, which Board is created by the provisions of this ordinance; to provide for appeals; to provide penalties for the violation of the land, or buildings shall be excluded except the following manufacturing: provisions of this ordinance, to provide for amendments to this ordinance and to provide for conflict with other laws; in accordance with the provisions of Chapter 509 of the Acts of 1924, Chapter 705 of the Acts of 1927, Chapter 599 of the Acts of 1933 and Chapter 448 of the Acts of 1935, of the General Assembly of Maryland.

Whereas, by authority of Chapter 599 of the Acts of 1933 of the · General Assembly, the City of Cumberland is authorized and empowered to create by ordinance a Planning Commission; and

Whereas, in order that the municipality may avail itself of the or Zoning powers conferred by this act, it shall be the duty of the Planning Commission to recommend the boundaries of the various original districts and appropriate regulations to be enforced therein; and

Whereas, by authority of Chapter 560 of the Acts of 1924 of the General Assembly, together with Chapter 705 of the Acts of 1927 as amended by Chapter 599 of the Acts of 1933, the Mayor and City Council may divide the municipality into districts of such number, shape and area as may be deemed best suited to carry out the purposes of these Acts. and within such districts it may regulate and restrict the erection, construction, reconstruction, alteration, repair or use of buildings, structures

Whereas, such regulations shall be made in accordance with a comprehensive plan and designed to lessen congestion in the streets; to secure safety from fire, panic, and other dangers; to promote health and the general welfare; to provide adequate light and air; to prevent the and the general welfare; to provide adequate light and air; to prevent the overcrowding of land; to avoid undue concentration of population; to not excluded from residential districts shall be known as residential uses. any permit for the construction, reconstruction, repair, or facilitate the adequate provision of transportation, water, sewerage, schools, parks, and other public requirements. Such regulations shall be the highest classification of any permit for the construction, reconstruction, reconstruction, reconstruction, repair, or alteration of any permit for the construction, reconstruction, reconstruction, reconstruction, extension, repair, or alteration of any permit for the construction, reconstruction, extension, repair, or alteration of any permit for the construction, reconstruction, extension, repair, or alteration of any permit for the construction, reconstruction, extension, repair, or alteration of any permit for the construction, reconstruction, extension, repair, or alteration of any permit for the construction, extension, repair, or alteration of any permit for the construction, extension, repair, or alteration of any permit for the construction, extension, repair, or alteration of any permit for the construction, extension, repair, or alteration of any permit for the construction, extension, repair, or alteration of any permit for the construction, extension, repair, or alteration of any permit for the construction, extension, repair, or alteration of any permit for the construction, extension, and extension of alteration of any permit for the construction, extension, and extension of alteration of any permit for the construction, extension, and extension of alteration of alteration of any permit for the construction and extension of alteration of alterat

General Assembly recognized that the local legislative body cannot examine each and every building and parcel of land within the municipal-

(o) situation and present uses of land and buildings for residence,

business, industries, churches, schools, and for other uses. As affected by the uses of land and buildings, by the heights of buildings and by the size and location of yards, and by the density of population in each of the districts hereinafter mentioned, the use of land and buildings, the heights of buildings, the size and location of yards and other open spaces and the density of population are hereby regulated and restricted, and the city of Cumberland is divided into five classes of districts. der namely

Residential A Districts; (2) Residential B Districts;

(3) Residential C Districts:

Business Districts (5) Industrial Districts:

as shown on the zone district map which accompanies this ordinance and which is hereby declared to be part of this ordinance. The districts designated on said map are hereby established. The district map designations, lines, figures, letters and symbols shown on said map are hereby declared to be part thereof.

Section 4. Residential Districts. In all Residential Districts, except as provided in Sections 9, 20 and 21, hereafter land shall be used and buildings, when constructed, altered, extended and used, shall be arranged, intended and designed to be used, and shall be so used for one or more of the following specified uses:

Single family dwelling 2. Two family dwelling in which are provided two separate and

inplete independent house-keeping units or apartments 3. Apartment House as hereinafter provided in Section 21

Lodging or boarding house, dormitory 5. Club for civic purposes operated solely by a recognized civic group

but a club, the chief activity of which is a business, and a club carried on as a business or for profit, shall be excluded 8. Church or parish house

School or College

8. Philanthropic or eleemosynary use or institution except a business r industry

9. Library, art gallery, community center building, or public museum 10. Hospital or Sanitarium, excluding institutions for mental cases, or cases of chronic neurothenics and chronic alcoholics 11. Farming, gardening, orchard, nursery, or greenhouse

12. Public Parks and athletic fields, playgrounds, tennis courts and other municipal recreational use

13. The office of a physician, or studio of an artist, or other professional person residing on the premises without advertising except

an ordinary identification sign on the building or inside of it 14. Customary home occupation carried on by a resident in his own home, not as a full time ordinary business activity, but incidental to the occupancy of the building as a dwelling and during such time as the resident is not otherwise engaged in ordinary house-

hold activity 15. Accessory uses, customarily or necessarily incident to any of the above specified uses. A sign on land or on a building, advertising it for sale, rent or lease shall be permitted as accessory. An accessory use shall be situated on the same lot as the primary use to which it is accessory. The term accessory use shall not include ordinary outdoor billboards or other outdoor advertising

structures, nor shall it include window display 16. A garage for not more than three cars

17. Other uses not of prima facia business, commercial or industrial character

Section 5. Phohibited Uses. In all Residential Districts except as provided in Sections 9, 20 and 21 land shall not be used and no building shall be used, constructed, extended or altered where such construction. extention or alteration is arranged, intended or designed to be used or to change any use for business, commercial or industrial use.

Section 6. Business Districts. In a Business District, except as provided in Sections 9, 20 and 21, hereafter land shall be used and buildings, when constructed altered, extended and used, shall be arranged. intended and designed to be used and shall be so used for one or more of the following specified uses:

. Uses permitted in residential districts

Retail business Wholesale and warehouse business

Railroads and railroad passenger and freight stations

Parking lots, garages and filling stations

premises

Section 7. Prohibited Uses. In a Business District, except as provided in Sections 9, 20 and 21, hereafter land shall not be used and no as follows:

building shall be used, constructed, extended or altered where such construction, extention or alteration is arranged, intended or designed to be used or to change any use for:

Automobile storage yard for wrecking, dismantling or junking cars Building material storage yard

Coal yard and lumber yard

Gasoline bulk storage 5. Junk yard or shop for purchase, sale, handling, baling or storage of scrap paper, scrap metals, scrap rubber, broken bottles, or rags where, in the conduct of which establishment these materials are on the premises. 6. Manufacturing except as permitted in Section 6, item 6

Any use or trade under the proper and safe-conduct of which according to good and reasonable practice, there results noxious or offensive odors, dust, smoke, gas, fumes, vibration or noise, ection 8. Industrial Districts. In an Industrial District, no use of

Acetylene gas

Ammonia Fertilizer

Fire works or explosives

Automobile storage yard for wrecking, dismantling or junking cars Chlorine and bleaching powder manufacturing

3. Slaughtering of animals, stock yards and junk yards Section 9. General Use Exceptions. Nothing contained in this

nance shall be construed to prevent Continuance of any use of land or building which now legally exists
 Extension of a use of any part of a building which is arranged.

intended or designed to be used for a use of the same classification 3. Extension of a use to the remainder of a lot, which was, at the time of the passage of this ordinance, part of a business or in-

dustrial lot or tract and then intended for such use. Reconstruction and use of any building destroyed by fire. Repair, restoration or strengthening of a building for the same use Replacement within six months of a building which has been removed by the owner and resumption of the same use.

Construction or use authorized by a permit which has been issued and exercised within six months of the passage of this ordinance, tion shall be made, as other building permits are applied for, to the 8. Construction of a necessary telephone exchange building as a Building Engineer, who shall have authority to pass on them, issuing telephone wire center.

Section 10. Classification of Districts and Uses. Uses which are of the district and its peculiar suitability for particular uses, and with a view to conserving the value of buildings and encouraging the most industrial uses and industrial districts. Uses which are excluded from Engineer to determine whether the application complies with the proappropriate use of land throughout such municipality; and.

Whereas, by the passage of Chapter 448 of the Acts of 1935 the industrial districts shall be known as industrial uses. business districts, shall be known as industrial uses. Industrial uses and visions of this ordinance, and shall be accompanied by a plat, in dupli-

ustrial districts shall be the lowest classification.

Section 11. Non-conforming Uses. A non-conforming use is a use the actual dimensions of the lot built upon, or to be used or to be built ity to establish its relation to the facts which determine the zone district that now exists and that does not comply with the regulations for the upon, the size and situation of all existing buildings, involved in the lines, the factor of safety in locating these lines, and the degree of exactness which they may present; and Whereas, according to said Act, in order to provide for adjustment in the relative location of uses and buildings of different classifications, and for adjustment at and near district boundary lines, and to permit greater flexibility in the application of the general zoning law it is

Section 12. Height Regulations. No building shall be constructed ordinance, the Board of Appeals is authorized to make special exceptions, to the Board of Appeals for its action and shall be returned by the Board If such an application is disapproved by the Board, it shall forthwith

houses, sky lights, stage towers and water tanks, occupying not more than twenty-five per cent, in the aggregate, of the area of the roof of the building on which they are located; D. Towers, occupying not more than twenty-five percent, in the aggregate, of the area of the building on which they are located

and not more than fifty per cent, in the aggregate, of the length of the street frontage of the building.

Section 14. Yard Regulations. No building shall be constructed ex-

Section 3. Use Districts. For the purpose set forth in Section 2 and cept in accordance with the yard regulations hereinafter prescribed for the district in which such building is located or is proposed to be located. No building shall be so extended, altered or moved as to reduce the open (b) water mains and pipes for fire extinguishment, domestic con-spaces prescribed for the district in which such building is located or such extension is proposed to be located. Section 15. Rear Yards and Side Yards. For each building which

may hereafter be constructed, extended, altered, moved or occupied, the following minimum yards are required: In Residential A Districts.

A rear yard thirty feet deep.

For a single dwelling, two side yards each ten feet wide. For a semi-detached dwelling, one side yard ten feet wide.

4. For other buildings, two side yards each ten feet wide. In Residential B Districts 1. A rear yard twenty feet deep.

2. For single dwellings, or semi detached dwellings and other buildings, one or two side yards the total width of which shall be one-fifth the width of the lot but one side yard shall be at least five feet wide.

In Residential C Districts. A rear yard fifteen feet deep. . One side yard three feet wide.

In Business Districts . A rear yard fifteen feet deep for dwellings.

In Industrial Districts.

A rear yard twenty feet deep for dwellings.

2. One side vard five feet wide for dwellings.

Section 15. Front Yards. Front yards shall be required in resitial districts under the following conditions herein specified: 1. Front yards required along undeveloped streets

Where, at the time of the passage of this ordinance, there are no existing buildings

(a) on lots fronting on the side of a street between two intersecting streets. (b) on lots fronting on the side of a street, between two inter-

secting streets, which street may be laid out after the passage of this ordinance, buildings shall be provided with front yards, the minimum depth of which shall be not less than twenty feet. 2. On a street frontage on a side of a street between two intersecting

streets or on such streets that may be laid out hereafter, (but excluding the frontage along the side line of a corner lot), and at the time of the passage of this ordinance; (a) Where, fifty per cent or more of such frontage is improved with buildings for which front yards are provided, or where all the buildings are provided with front yards, the

depth of front yards of such buildings now existing shall the required depth of front yards for buildings hereafter constructed or extended, but the required depth shall (b) Where mofe than fifty per cent of such frontage is

improved with buildings which have no front yards, no the nature and extent of the facts which the Board shall consider and front yard shall be required for the remainder of such frontage: (c) Where the above provisions do not establish the depth of

front yard the provision most applicable shall be employed.

3. For the purpose of determining the percentage of the frontage to the varying facts of actual cases as they arise, in order to promote the usefulness of the ordinance as an instrument for fact finding, interthat is improved or occupied by buildings, the frontage of so much of the open space adjacent to a building as is used in connection with such building shall be included

4. The side line of a corner lot shall not be considered as frontage for determining the depth of a required front yard.

Section 16. General Regulations and Exceptions. The following the following rules are set up

general regulations and exceptions shall apply in residential districts: 1. Garages and accessory buildings may be constructed in rear yards provided that not more than fifty per cent of the area of a rear vard (computed by multiplying the depth of the required rear yard by the width of the rear yard) is occupied by such garages and accessory buildings.

2. Garages and accessory buildings hereafter constructed shall be set back not less than ten feet from all street lines 3. Ornamental fences, walls or hedges not over three feet, six inches

high may project into or may enclose any yard. 4. Enclosed or unenclosed porches not more than one story in height may project not more than ten feet into the front yard 5. An unenclosed porch may project not more than six feet into a rear yard, steps for entrance to a building may project into any

yard, and a chimney, oriel or bay may project not more than three feet into any yard. 5. Notwithstanding other provisions of this ordinance a building may be constructed for and occupied by one family on a lot, the separate identity of which was determined at the time of the passage of

7. Notwithstanding other provisions of this ordinance pertaining to the number of families, nothing contained in this ordinance shall be construed to interfere with or restrict the number of families occupying buildings at the time of the passage of this ordinance. 8. Notwithstanding other provisions of this ordinance, a garage for not more than one vehicle and not more than two hundred and

forty square feet in area, may be constructed in the rear yard on

lot on which there is a building, but not a garage, at the time of the passage of this ordinance. Section 17. Interpretation of District Maps and Map Designations The following rules of interpretation shall be applicable to the district

maps A. A district name on the district map indicates that the regulations 8. Manufacturing, within the fire proof and inner fire zones, and pertaining to the district designated by that name, number, or letter, limited to stores or shops for custom work or for the making of extend throughout the whole area bounded by the district boundary lines articles, the major portion of which are to be sold at retail on the within which such name, number, or letter is shown, except as otherwise provided by these rules.

B. The precise location of a district boundary line is to be determined

(1) Where a boundary line is shown as binding along, or superimposed upon, a lot line, such lot line shall be deemed to be the boundary line

navigable stream except in cases where the side of such stream

track, or as being located a designated number of feet from a railroad track, or where the location of a boundary line may be

scaled from a railroad track, the nearest rail of the track

any of the rules in (1), (2), (3), or (4) of this section, its precise location shall be determined by scaling from fixtures, objects or

district boundaries, a blue print, white print or other suitable

copy of said map shall be kept by the City Engineer and imme-diately upon the passage by the Mayor and City Council of any

amendment to or change of the map and the location of the

boundary lines, the City Engineer shall forthwith add the said

amendments or changes to his copy of the district map; to the

end that it shall be an up-to-date record of the zoning of the

city which shall be an accurate public record for reference for all those desiring to know how any lot or all of the land through-

the district boundary lines, shall be accompanied by a plat

showing the information necessary to enable him to plot the

amendment on the district map kept in his office as a public

(7) Every amendment, authorized in Section 29, proposing to change

drawn to such scale as the City Engineer shall require

to the Building Engineer with the action of the Board noted in writing.

Section 20. Board of Appeals. The Board of Appeals is hereby

1. The Board shall consist of three members appointed as required

The Board shall adopt rules in accordance with the provisions of this ordinance and Chapter 599 (supra).

3. Meetings of the Board shall be held at the call of the Chairman

and at such other times as the Board may determine. Such Chairman or, in his absence, the acting Chairman may administer oaths

and compel the attendance of witnesses. All meetings of the Board shall be open to the public. The Board shall keep minutes of its proceedings, showing the vote of each member upon each

question, or, if absent or failing to vote, indicating such fact, and

shall keep records of its examinations and other official actions, all

of which shall be immediately filed in the office of the Board and

aggrieved, or by any officer, department, board or bureau of the

municipality affected by any decision of the Building Engineer.

Such appeal shall be taken within a reasonable time as approved

with the Board of Appeals a notice of appeal, specifying the grounds thereof. The Building Engineer shall forthwith transmit

to the Board all the papers constituting the record upon which the action appealed from was taken. If an application is dis-

approved by the Board of Appeals thereafter the Board shall take

no further action on another application for substantially the same

proposal, on the same premises, until after six (6) months from

of Appeals, after the notice of appeal shall have been filed with

him, that, by reason of facts stated in the certificate, a stay would,

in his opinion, cause imminent peril to life or property. In such

case, proceedings shall not be stayed otherwise than by a restrain-

ing order, which may be granted by the Board of Appeals or by a

court of record on application, on notice to the Building Engineer

6. The Board of Appeals shall fix a reasonable time for the hearing

7. The Board of Appeals shall have the following powers

of the appeal, give public notice thereof, as well as due notice to

the parties in interest, and decide the same within a reasonable

(a) To hear and decide appeals where it is alleged there is error

(c) To authorize upon appeal in specific cases such variance from

public interest where, owing to special conditions, the enforce-

ment of the provisions of this ordinance will result in unwar-

ranted hardship and injustice, but which will most nearly

accomplish the purpose and intent of the regulations of the

8. In exercising the above mentioned powers, the Board may, in con-

formity with the provisions of Chapter 599, (supra) reverse or

affirm, wholly or partly, or may modify, the order, requirement,

decision or determination appealed from, and may make such order, requirement, decision or determination as ought to be made,

make certain exceptions herein provided. Under this authority,

uses and buildings shall be issued without the approval of the Board.

in any order, requirement, decision or determination made by

Upon the hearing, any party may appear in person or by

An appeal stays all proceedings in furtherance of the action appealed from, unless the Building Engineer certifies to the Board

by the rules of the Board by filing with the Building Engineer and

vicinity which have changed since the zone plan was original street, alley, or non-navigable stream, such boundary line shall be deemed to be in the center of such street, alley or non-

C. To permit buildings and uses limited as to location in the follows

1. Permit a business use next door to a business or industrial

in a residential district. 2. Permit on a lot adjacent, or in an adjoining, building, t non-conforming use a use of the next higher classificat

3. Permit a business use on a corner of intersecting streets wh three corners or more are already used for business or indus 4. Permit buisness to extend to the entire lot where there is r

business on a portion of the lot. Permit business on a lot between two lots which are now for business. 6. Permit a use now existing in any part of the building to

extended vertically or laterally to other portions of the build and to permit such use or any part of it to be changed another use of the same classification. In a building n occupied by a business or industrial use, to permit a use of same classification in the remainder of the building

Permit the extension of an existing building and the existing use thereof upon the lot occupied by such building at the of the passage of this ordinance or permit the erection of additional building upon a lot occupied at the time of passage of this ordinance by a business or industrial establ ment and which additional building is a part of such establi

8. Where a use district boundary line crosses a lot, to permi use of either classification on the whole lot.

9. To permit controlled parking, with necessary regulations, automobiles in residential districts on open lots adjacent business and industrial districts where such parking will to relieve traffic congestion in the streets at and near premises in question, will tend to reduce the number of vehi moving or parked on the residential streets, thereby lessen the noise, dust and gas near the dwellings, and tending to mote more safety for pedestrians and the children playing

10. To permit in a building adjoining an existing business industrial use, a use which per se, or by reason of its operation results in less hazard from fire or traffic, less traffic cong tion, less noise, dust or artificial light than the existing busi or industrial use now there, so that there may be interpe between dwellings, and business and industrial uses, such as may be less hazardous than the existing business or dustrial use, to the end that the less hazardous shall adjacent to a dwelling.

11. To promote safety from fire hazard, in business districts permit removal of frame structures and replacement structures having non-inflammable walls of masonry or me for a use of the next lower classification than the classificat of the district under such conditions as may tend to reduce hazard on the premises and in the immediate neighborhood

12. To permit an exception in the area regulations on a lot wh on the adjacent lot there is a non-conforming front, side rear yard. 13. To permit a yard exception on corner lots or lots opposite adjoining permanent open spaces, including parks and pl

grounds. 14. To permit an exception in the depth of rear yard on a lot block where there are non-conforming rear yard conditions. Make a special exception where there are irregularities

depths of existing front yards on a street frontage on the of a street, between two intersecting streets, so that any of the existing depths shall, for a building hereafter constr ed or extended, be the required minimum front yard dep 16. Make a special exception in the front yard requirements

any lot or for a street frontage on a side of a street between two intersecting streets. 17. Make special exceptions in front, side and rear yards if nece sary because of topography.

18. To permit: (a) an apartment house for more than two families (b) a group of such apartment houses

(c) a housing project to be constructed as a unit according to well planned design: If in each case, there is provided in the aggregate, as ma square feet of yard area as would be represented by the figu

obtained by multiplying the sum of the minimum required from rear and side yard areas for an average dwelling house in block by one-half the number of families proposed to be hou in the project. D. Where in this section the Board is authorized to approve ex-

tions, the approval shall be limited by such conditions as case may require, including, if necessary, any of the follows specifications: 1. No outside structures, except professional signs.

Limitation of signs as to size, color, location. 3. Limit outdoor advertising. . Face brick. Cleaning or painting

6. Gable roof or other type.

A cornice or no cornice. 8. Connected or disconnected with other buildings. . Exits, doors and windows. 10. Paving, shrubbery, or ornamental fence or wall.

11. Time of day or night for operating. 12. No store front.

13. No structural changes. 14. Control or elimination of smoke, noise, dust, gas or vibration caused by operations. 15. Such other conditions as are necessary

E. Where in this section the Board is authorized to approve exc tions, such approval shall not change the use classification the building nor give it any status as a non-conforming such as is referred to in Section 11, nor shall there be anot change of use without approval of the Board. Section 22. Court Review. Any person or persons, jointly or sever the Building Engineer in the enforcement of this ordinance ly, aggrieved by any decision of the Board of Appeals, or any taxpay

or any officer, department, board, or bureau of the municipality, (b) To hear and decide special exceptions to the terms of this ordinance upon which the Board is required to pass under this forth that such decision is illegal, in whole or in part, specifying the specified or the country of the country and the specifying the specified or the country of th grounds of the illegality. Such petition shall be presented to the cou the terms of this ordinance as will not be contrary to the the Board. within thirty (30) days after the filing of the decision in the office Upon the presentation of such petition the court may allow a writ

certiorari directed to the Board of Appeals to review such decision the Board of Appeals and shall prescribe therein the time within whi a return thereto must be made and served upon the relator's attorned which shall not be less than ten (10) days and may be extended by the The allowance of the writ shall not stay proceedings upon decision appealed from, but the court may, on application, on notice the board and on due cause shown, grant a restraining order

The Board of Appeals shall not be required to return the origin to that end, shall have all the powers conferred upon the papers acted upon by it, but it shall be sufficient to return certified sworn copies thereof or of such portions thereof as may be called for Section 21. Special Exceptions by the Board of Appeals. In order such writ. The return shall concisely set forth such other facts as many provide for adjustment in the relative location of uses and buildings be pertinent and material to show the grounds of the decision appeals different classifications, and for adjustment at and near district from and shall be verified.

If, upon the hearing, it shall appear to the court that testimony boundary lines, and to permit greater flexibility in the application of this ordinance, the Board of Appeals, under uniform rules and regulations, necessary for the proper disposition of the matter, it may take eviden or appoint a referee to take such evidence as it may direct and repo set forth in this section and under general rules in this ordinance, may the the same to the court with his findings of fact and conclusions, Board shall determine the facts of a particular case and their applicabi- which shall constitute a part of the proceedings upon which the determine lity to the spirit and intent of this ordinance, and no permit for such ination of the court shall be made.

Costs shall not be allowed against the board unless it shall appe to the court that it acted with gross negligence, or in bad faith, or wit As recognized by the General Assembly in Chapter 448 of the laws of 1935, so also the Mayor and City Council of Cumberland recognizes that malice in making the decision appealed from All issues in any proceeding under this section shall have preferen

the rules which the municipality shall set up to guide the discretion over all other civil actions and proceedings herein conferred are not susceptible of precise definition, nor reducible Section 23. Conflict with Other Laws. Section 23. Conflict with Other Laws. The provision of Chapter 17 to any exact or final formula, but must be gathered from their application supra, shall govern in such cases.

Wherever the regulations made under authority of this ordinand require a greater width or size of yards, courts, or other open spaces, or other open space pretation, application and adjustment, to supply the necessary elasticity require a lower height of building or less number of stories, or require to its efficient operation, and to protect the whole people from the evils greater percentage of lot to be left unoccupied or impose other highe and dangers which follow the strict and literal application of a general standards than are required in any other statute or local ordinance zoning law to actual facts and conditions at the time of the application regulation, the provisions of the regulations made under authority of the ordinance shall govern. Wherever the provisions of any other statute of Beside other guides and standards in this ordinance local ordinance or regulation require a greater width or size of yards A. Procedure required of the Board of Appeals before deciding any courts, or other open spaces, or require a lower height of building or less number of stories, or require a greater percentage of a lot to be let unoccupied, or impose other higher standards than are required by the regulations made under authority of this ordinance, the provisions of such statute or local ordinance or regulation shall govern.

Section 24. Procedure in Case of Non-Conformity. If, on an in 4. Consideration of present physical conditions on the premises spection, the condition of a building or land or its use or occupancy ar 5. Consideration of the past physical conditions which affected or found not to conform to the requirements of this ordinance or the cond determined the zone plan for the property and its immediate tions of an existing certificate of occupancy, the Building Engineer shall vicinity, and considering especially any changes of these since at once issue written notice to the owner, specifying the manner in which the building or land or its use or occupancy fails to so conform, and the 6. Give all parties in interest the right to testify as to any material owner shall at once take steps to make it so conform, as directed by the Building Engineer; and the Building Engineer shall order the use or the 7. It shall act as a fact-finding body and shall approve or dis- occupancy of the building or land modified or the building or approve the issuance of a permit for the proposed use in accord-ance with the evidence adduced before it and from its own conform to the requirements of this ordinance.

Section 25. Penalties for Violation. Any person who shall construc B. In passing on any case under the authority of this section and as a further guide to its decision upon the facts of the case, the or change the use of any land or building, in violation of this ordinance Board shall consider among other things the following facts inso- or who shall neglect to obtain the permit or certificate of occupance required by this ordinance, shall be guilty of a misdemeanor and, upo 1. The rules and regulations set forth elsewhere in this ordinance, conviction in any court of competent jurisdiction, shall be fined not le than twenty-five nor more than two hundred dollars. Every such person 2. The character and use of buildings and structures adjoining or shall be deemed guilty of a separate offense for every day such violation

in the vicinity of the property mentioned in the application, shall continue. Section 26. Validity. In case it be judicially determined that any The number of persons residing, studying, working in or otherwise occupying buildings adjoining or in the vicinity of the word, phrase, clause, item, sentence, paragraph or section, or the application thereof to any person or circumstance, is invalid, the remaining Traffic conditions and accessibility of building for fire and provisions and the application of such provisions to other persons of circumstances shall not be affected thereby, the Mayor and City Counci 5. During November WASHINGTON, Dec. 11—(P)—Senator Byrd (D-Va) reported to the Senate today that civilian employment in the government declined 14.845 in October, to a total of 3.038.502.

The decrease compared with a return of the previous month and more than double the combined total for October and September—the ministry of home security disclosed tonight.

Of those killed, 269 were men, 345 women and 102 children under 16 years.

It was during November that the senator is chairman of the joint committee on reduction of nonessential federal expenditures.

WASHINGTON, Dec. 11—(P)—Senator Byrd (D-Va) reported to the Senate today that civilian employment in the government declined 14.845 in October, to a total of 3.038.502.

The decrease compared with a reduction of 34.661 in September.

"This seems to indicate," Byrd said, "that there has been a halt in the efforts towards a genuine reduction in civilian personnel."

The senator is chairman of the joint committee on reduction of 18 constipation underest of 28 countries. Find out what they will do for you. Brandreth Pills are effective per gentle. At all druggists 25c.

It was during November that nonessential federal expenditures. British officials first announced the Nazis were firing long-range rockets against these islands
